

OSHA VACCINE UPDATE

Bulletin Date: November 18, 2021
Primary Departments for Review: All Employees
Effective Date: November 18, 2021

INFORMATIONAL:

A federal court order has **halted** the OSHA Vaccination & Testing Mandate for employers with 100 employees or more. OSHA has announced it will **suspend** activities for the Mandate pending future developments with litigation. Employers are not required to adopt a Vaccination Policy unless there is a new federal court order.

What this means is that Supreme Lending will make no changes at this time but will continue to monitor all developments.

Please let me know if you have any questions.
