# Install & Access Microsoft Azure VDI

Installation of Azure VDI

1. Access Ivanti Portal Manager by selecting the icon on the desktop or searching for it at the Start Menu.

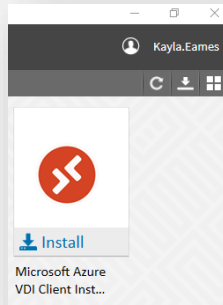

1. Select refresh on the Ivanti End User Workspace window that appears.

2. Once the refresh is completed the Azure VDI installation package will be available in the window.

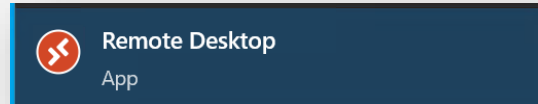

3. Click on the "Install" link and allow the installation to be completed.

Install & Access Microsoft Azure VDI
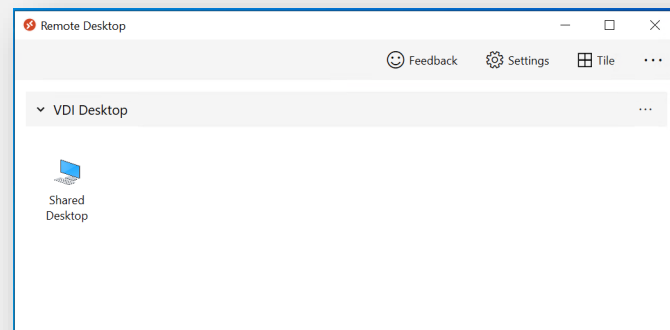

Accessing Azure VDI

1. Type "Remote Desktop" in the search bar then select the app.

2. Once the window opens, click on the Subscribe button.

3. When prompted, enter your Supreme Lending email credentials.
4. Once the credentials are verified the window will display the VDI desktop that you have access to.

5. Double click on the appropriate icon located within the window.
6. Your VDI session opens in an RDP window.

International Travel Information: If you plan on traveling outside of the country, please reach out to the IT Service Desk (ServiceDesk@SupremeLending.com or 972-447-5690) a week prior to your departure to ensure that you will be able to successfully utilize AVD.
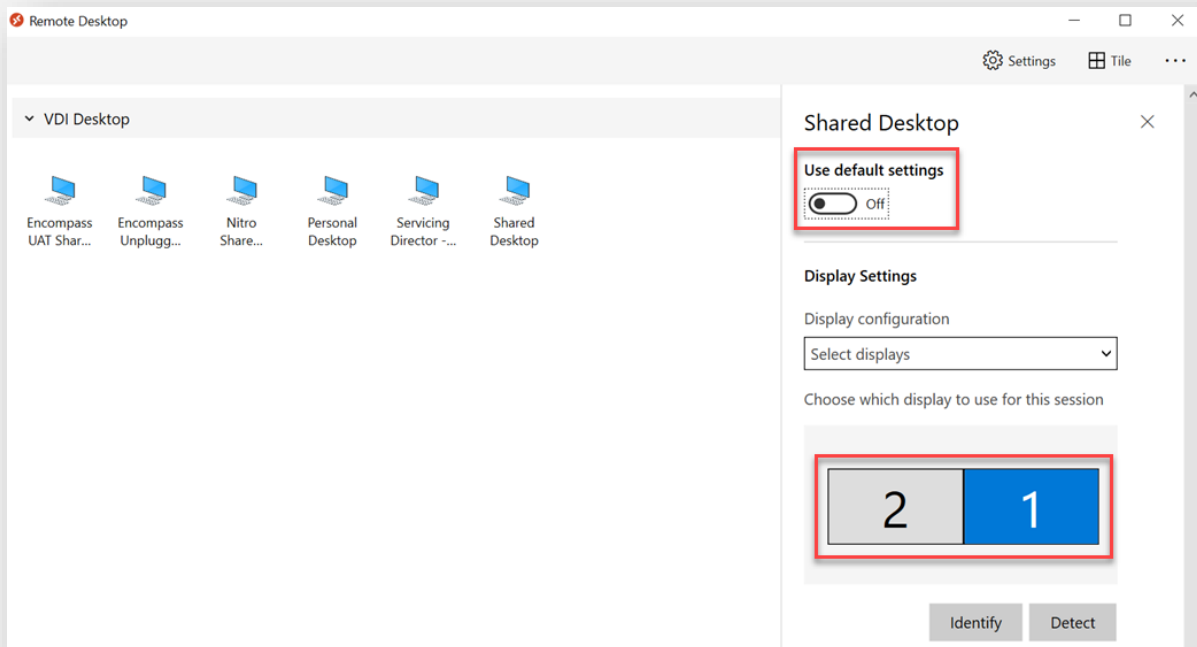

Install & Access Microsoft Azure VDI

Adjusting Display Settings

When using two monitors, Azure VDI will open on both by default. To adjust the display settings to open on one monitor:

1. Right click the Remote Desktop Client and select Settings.

2. Switch the default setting toggle off and choose the monitor you wish to use.

Note: There is no save button. Double click the icon to begin the session.
